

FireRescue GPO is a program of NPPGov providing fire departments access to publicly solicited contracts from vendors who supply goods and services to the fire service. Contracts are created through a public RFP process by a Lead Public Agency that allows members to “piggy-back” on the contract—eliminating the need to complete their own RFP process. FireRescue GPO staff and legal counsel facilitate this process and provide necessary documentation and support.

In addition to saving you money, the program generates revenue for the fire chiefs association where the purchase was made including the IAFC, IAFC Division Association, and State Chief Associations.
